## Black Manta Capital Partners receive BaFin Licence with Luther for Multi-STO-Platform

**As of August 1st 2019, Black Manta Capital Partners' Berlin operating entity, BMCP GmbH, received the licence within the MiFID II regime by the German financial regulator BaFin to run a Multi-STO-Platform and act as a One-Stop-Agency for Security Token Offerings, out of Germany, within the European Union. The application process was supported by Luther Lawfirm.**

BMCP GmbH is now a Financial Services Institution that provides regulated financial brokerage services using Blockchain technology in accordance with the MiFID II regime. The 100% subsidiary of the Luxembourg based holding entity Black Manta Capital Partners S.à.r.l. is one of the first European entities granted this licence for blockchain based financial services.

With so-called Security Tokenization, BMCP GmbH converts rights to an asset into a digital token, creating intelligent investment contracts on a blockchain. This innovation in financial products creates completely new access to capital for small and mediumsized enterprises, real estate projects, startups, commodity markets or funds – as well as new access to investments for new investors. The operative start of the investment platform with the first Token Offerings is planned for early Q4/2019.
