

Luther becomes part of the “SPECTARIS Competence Network Medical Technology”

Berlin, 11.10.2023 – The industry association SPECTARIS has launched the “SPECTARIS Competence Network Medical Technology”. Ten renowned consultancies are part of the team, including Luther Rechtsanwaltsgesellschaft.

The competence network is designed to enable members to create synergy effects and to collaborate and exchange ideas with other experts in the industry. The medical technology industry is facing ever greater regulatory challenges – thanks to the network, the partners benefit from each other and remain competitive.

In addition to medical technology at SPECTARIS and Luther, partners of the Medical Technology Competence Centre are: Cisema (Hong Kong) Limited, Dierks+Company, Durch Denken Vorne Consult, EAC - International Consulting, ISS International Business School of Service Management, Kienbaum Consultants International, novineon CRO, Roland Berger and Summary Seven Healthcare Consulting.

Luther Rechtsanwaltsgesellschaft has bundled its expertise from various consulting fields into five industry groups. The *Health Care & Life Science* industry group brings together experts who are familiar with the structures of the health care market, know the regulatory and political framework and understand the economic goals of their clients. This allows them to concentrate fully on their actual business: Patient care, research into new medicines or, for example, the development of state-of-the-art medical technology.

About SPECTARIS:

SPECTARIS is the German industry association for optics, photonics, analytical and medical technology based in Berlin. The association represents 400 predominantly medium-sized German companies. The Medical Technology Association within the German Industry Association SPECTARIS represents around 130 predominantly medium-sized member companies. These are innovative manufacturers of medical devices and medical technology as well as quality-oriented non-medical service providers from the respiratory home therapy sector. In 2022, the German medical technology industry generated global sales of EUR 38.4 billion.
