Company Disputes Talks

Directors liability in distressed companies: recent trends in Germany, Italy and France

Every managing director is responsible for the success of the business operations. This also includes the consistent monitoring of the company's liquidity to be able to take countermeasures in time with restructuring measures. Especially in a strongly fluctuating overall economic situation, even healthy companies can quickly run into difficulties that require immediate action by the management. The recent sharp rise in energy costs or the debate about supply shortages in some industries are just two examples that confirm the relevance of the topic.

In our webinar on 27 January 2022, we would like to give you an insight into the basic liability regimes in France, Italy and Germany and discuss the liability risks with you.

We look forward to your participation.
