Luther – Managing Public Funding

A large number of megatrends are changing business models and entire industries in an extraordinary way. Innovation is a driving factor that helps a company ensure its sustained business success in the market. The EU, the German federal government and the German federal states provide a multi-layered and complex offer of public funding programmes to support the business models and innovations of a wide variety of organisations. With Luther.Public Funding, we can provide integrated services in this field.

Using a proven approach, we combine our legal expertise in public funding programmes, their requirements, selection and the application with a proven method to manage, control and maintain the necessary processes and workflows. We efficiently combine business requirements, our understanding of processes, and the latest technology to provide value-generating services to your company or your organisation.

Our Services:

- Analysing public funding databases on an ongoing basis and adding further sources
- Recording the business strategy and current and planned projects in a structured manner to identify relevant public funding programmes
- Comparing the business profile with offers of public funding from the EU and the German federal government, federal states and municipalities
- Examining the eligibility for public funding and preparing the required documentation
- Assisting with and keeping track of the approval procedure through the use of well-proven workflows and IT tools
- Monitoring the funds and creating supporting documents
- Screening information and data sources on a regular basis to identify new opportunities for public funding

The described service components are generally defined in more detail in moderated workshops that are attended by the business areas involved, lawyers from Luther and our digital and process experts.

Overview of Service Components:

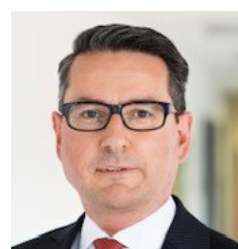

Our Digital Expertise:
